

HOW EFFECTIVE IS PURIFYD®SYSTEMS?

PURIFYD®SYSTEMS is without a doubt the safest, most effective, health protection system for you, your family. The PURIFYD®SYSTEMS Formula is ideal for:

- People with environmental allergies or sensitivities, who often suffer as HVAC systems blow around pollens and mold spores
- Families with young children who are much more susceptible than adults to harmful germs and toxic molds
- Elderly people, including those with COPD and other respiratory illnesses, who are at greater risk from airborne bacteria and viruses such as the flu or influenza
- People who use their vehicle as a mobile office and those that drive a fleet vehicle for a living

ACCREDITED BY:

The intelligent chemistry in the PURIFYD®SYSTEMS Formula is the world's strongest, most effective disinfectant. Professionally applied by one of our PURIFYD®SYSTEMS Certified Service Providers, it will virtually eliminate with 99.99999% effectiveness*, any contaminant, of any size, anywhere, and it is completely scalable - from spot decontamination to pandemic procedure. As powerful as it is, it is also completely safe. It is less corrosive and environmentally safer than household bleach and most significantly, it has been registered with the US EPA as environmentally safe and Health Canada as safe for all applications including food handling.

It is this electro-chemical reaction that delivers the log-7 kill rate (99.99999% effectiveness).
